Strongest in Python/Django, with working knowledge of PHP, JavaScript, and WordPress. Seeking an entry-level Full Stack Developer role to apply strong technical and problem-solving skills.

SKILLS

Language & Framework: Python, Java, PHP, JavaScript, C++, C#, Dart, Django, Laravel, Spring Boot, React, WordPress
Database & Tools: Git, GitHub, Docker, VS Code, IntelliJ IDEA, PyCharm, Postman, Notion, Discord, MySQL, PostgreSQL, SQLite, SQL Server

EDUCATION

PANGASINAN STATE UNIVERSITY – San Carlos Campus 2022 - 2026
BS Information Technology

WORK EXPERIENCE

Outsoar San Carlos City, Pangasinan
Web Development Intern Feb - May 2026

- Designed and developed multiple WordPress websites independently, including a personal portfolio site, delivering fully functional pages on schedule and showcasing completed projects and skills.
- Built client websites on WordPress as part of a project team, matching branding requirements and resulting in fully functional sites ready for client launch.
- Collaborated with a team to manage an e-commerce website on WordPress, handling content and product listings that kept the online store updated and ready for customer browsing.

PROJECTS

RESEARCH AND EXTENSION MANAGEMENT SYSTEM Jan - Dec 2025
Full Stack Developer psurems.online

- Developed a full-stack web application using Django (Python) and MySQL to manage research and extension processes, covering proposal submission, monitoring, and reporting.
- Built and deployed the system to a live production environment, resulting in a functional platform currently in active use.
